Atlantic Fictus Corp — Q3 Financial Summary (Demo v1.0, all figures fictional)

For the third fiscal quarter of the demo year, Atlantic Fictus Corp reported total revenue of \$42.7M, up 8.5% quarter-over-quarter, driven primarily by growth in the fictional "CloudWidget Suite" product line. Gross margin held steady at 61%, while operating expenses rose modestly to \$18.3M due to a one-time investment in the fictional Northfield data center expansion.

|--------------------|-----------|-----------|--------|
| Total Revenue      | \$39.4M   | \$42.7M   | +8.5%  |

Net income for the quarter was \$10.9M, representing an 11.2% increase over the prior quarter. The finance team attributes this to disciplined cost control in the Northfield and Lakeside regions, offset partially by increased marketing spend ahead of the fictional holiday sales cycle. The Board's fictional Audit Committee reviewed and approved these figures on the last business day of the quarter.
